The Efforts of the Snake Specialist Outdone in the Story of Mr. Griswold's Pet.

Special to the Scranton Tribune

Factoryville, July 8 .- About seven or eight years ago, George Griswold had young alligator, which escaped from Its confinement and took up its abode In Nekomis lake, back of Keystone academy. Nothing was seen of it for some time, but recently it has been seen by several different parties, and much to the surprise of Mr. Griswold, one day last week, while in bathing in the above lake his former pet came up out of the water and took a sun bath on a log. Mr. Griswold gazed at him for a few moments in surprise, and then tried to ap-proach him, but Mr. Alligator gave him a knowing look, winked the other eye and slid off into the water, disappearing from view. Mr. Gris-wold describes him as being about four feet long, showing a growth of about three feet since he escaped The all-absorbing question is now How did he become acclimated to the

An alligator of this size would be able to tear one's flesh from the body of crush a person's limb. This is a favorite bathing place for the townspeople, and no doubt, now that a man-eater has been discovered there, it will be less frequented by lovers of

fey water in winter?

Pittston, July 8 .- An elderly looking man whose name and description occupies a place on the fakir list of the Lodge of Elks was exposed here this morning by A. Marcus, exalted ruler of the local lodge. He appeared at Mr. Marcus's store this morning ned put up a phiful stery of hard luck, and begged for assistance on the plea of lodge affiliation. Marcus was suspicious and bade the man call later in the day. Marcus then looked over the fakir list and found the description of a man who tallied exactly with that of the stranger. A sample of his hand writing was identical with the man's signature at the hotel in which he had registered. When the stranger reappeared at the store Marcus was ready for him. He had a camera set and snapped the man's picture and then accused him of being a The fakir admitted his guilt, and acknowledged that the description on the lodge circular was that of himself. He said he had been working the same racket in all the big

When members of the Ninth Regiment were practicing at the rifle range at West Pittston Saturday afternoon, William Nolan, who was performing the duties of target tender, had a narrow escape from being shot. The contestants had been shooting at the five hundred yard range, and had just changed to the six hundred yard range. Nolan stepped out to blot out the marks where they had been shooting, and a Wilkes-Barre man accidentally shot at the wrong range. The bullet passed through the rim of Nolan's hat tearing it off com-

Local horseman M. L. Perin will leave tomorrow for Utica, N. Y., where he will participate in the races this week. He shipped Saturday three of his best head of stock, including Exploit, Jennie Glennon, Sadie Bar-ren and Clesentry. Perin's frieuds expect to hear a good report from him. Miss Hannah Thomas, of West

Pittston, one of the Garden Village's popular school teachers, left this morning with six Scranton young ladies for a four weeks' trip to Western

Last week marked the passing of the last vestige of a scheme of a late wealthy man of this city for the establishment of a large summer resort at the head of Wyoming valley that would have meant much to the popularity and welfare of this vicinity had not death intervened. It was the tearing down of the large windwheel or pumping station that had supplied the water for the residents of Slocum's village, about a half mile below the gap through which the Susquehanna enters the beautiful valley of Wyoming. A few years ago James Slocum, reputed as one of the most wealthy men of this vicinity, a pioneer settler, conceived the idea of the natural beauties of Scovil Island as a resort, and he had mapped out a plan for the erection of a large summer he tel, the building of attractive drive-

The man who can hardly crawl, and has just strength to get through a day's work, has no strength left for family life. He wants to be quiet; to be alone, out of sight and sound of everybody.

What a difference between such a man and the healthy, hearty man, who tomps with his children and rides his laughing baby to "Banbury Cross." What makes the difference? Usually disease of the stomach, involving the

entire digestive and nutritive system. Dr. Pierce's Golden Medical Discovery tures diseases of the stomach and other organs of digestion and nutrition. When these diseases are cured the hindrance to the proper nourishment of the body is removed and strength comes back again.

"I am happy to say I am getting to feel fine."

writes Mr. A. J. Vanderwater, of 873 West
Division Street, Chicago, Ill. "In all I have
taken six bottles of Golden Medical Discovery
and four or five vials of the little 'Peliets.' They
have done me worlds of good. These medicines have brought the great change in me
from a slow mope of a man that could hardly
crawl, tired and sick all the time, and could do
no work. Now I can work sleep, cat, and feel
fine, and that tired feeling is all going away. I
am very thankful that I wrote to Dr. Pierce.
His Golden Medical Discovery and his little
liver 'Pellets' have almost made a new man of
me. I feel young as I did at thirty years. No
other doctor for me, only Dr. Pierce.

Dr. Pierce's Common Sense Medical removed and strength comes back again.

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. v. Pierce. Buffalo, N. Y.

THE MARKETS.

Wall Street Review.

New York, July S.—The action of prices in to-day's stock market made it evident that very large financial interests were conducting some notable operations. The episode of the Seventh National bank failure and the bank failures in Buffaio have become sufficiently clear to indicate that they are not of prime importance in the immediate losses involved or in the immediate collateral effects but as a possible symptom of general conditions they have received serious attention. The accumulation of doubtful securities has always proved a consequence of a period of industrial expansion, business prosperity and the general credit which is thereby caused. The actual present conditions in Germany bears striking testimony to this economic law. The Seventh National bank episode has undoubtedly induced a general overhauling of collateral by the banks of the Wall street district. Not a little liquidation has been immediately induced as a result. In the stock market there have been large speculative holdings which were withheld from sale only by reason of the support which has been accorded to prices by large syndicates and moneyed interests. The indications were that a considerable part of this support was withdrawn today and large holdings were disloiged by the decline in prices 'which was allowed to occur. The selling was concentrated in character, the bulk of it coming from a few stock exchange hoises which have often acted for western capitalists, some of whom had become prominent, in the steel trade before the formation of the United States Steel corporation and have been relegated to the background since the rise of that corporation. The selling attributed to this source was enormous, not only of the United States Steel acceptance, but of the railroad stocks which led the shunp. The immediate cause of Wall Street Review. in this territory comprise the principal properties supposed to have been heaught into community of interest, and as there has been a large speculation in them founded on this supposition, the hostility manifested by a cutting of rates made them peculiarly vulnerable. They led the decline all day with only occasional straggling rallies on covering by bear traders. In the final break St. Paul fell an extreme 10%: Missouri Pacific, S; Union Pacific, 7%; Atcinson, 7%, and United States Steel, which had offered some resistance during the day, suddenly dropped four points under very heavy offerings. While the general market was less acutely affected there was some sharp losses recorded among the New York public utilities, the most prominent industrials and the castern trink lines and cualers. The declines in these ranged from 3 to 7 points in the principal cases and the market closed in a semi-demoralized condition. Total sales, 1,000,500 shares.

Railroad bonds were work in aympathy with treeks.
